

BASKET STRETCHER

BASKET STRETCHER

Traverse Advantage

DESCRIPTION

The Traverse Advantage sets a new standard for plastic-style basket stretchers, combining innovative design and superior functionality for the most demanding technical rescues. The fully internal stainless steel frame is rated for a strength of 1134 kg.

This frame ensures exceptional durability while providing a completely smooth sliding surface on the bottom, enabling easier handling in challenging conditions.

The High-Density Polyethylene (HDPE) shell is attached to the top tube, the shell leaves the secondary rail fully accessible, offering unlimited tie-in options for secure patient handling during technical rescue operations. The shell features ample cut-out sections that expose the top rail, ensuring ease of handling. The 7/8" tubing provides a comfortable and secure grip for rescuers. The patient pad is made of closed-cell foam so it resists fluid absorption and can withstand even the harshest cleaning agents. It is easily removable and replaceable as needed, ensuring hygiene and longevity.

With its robust construction and user-friendly design, the Traverse Advantage Basket Stretcher is an essential tool for technical rescue operations, offering durability, versatility, and comfort in one comprehensive package.

Standard on the Advantage is our patented StratLoad™ attachment points that make it quick, easy and safer to clip your Litter Bridle into while protecting the carabiner from wall and rock faces etc.

FEATURES

- StratLoad™ Feature as Standard
- Fully-internal stainless steel frame had a 2500 lb. strength rating providing a completely smooth sliding surface
- Tested to withstand static load of 1134 kg (11 kN)
- 7/8" Top Tube – The large Top Tube is very easy to hold onto, especially in long carries
- High Density Polyethylene shell
- Closed-Cell Foam Patient Pad - Will not allow fluids to soak into it

SPECIFICATIONS

- | | |
|------------------|--------------------|
| • Art. Nr | TR110125A |
| • Certifications | CE 93/42/EEG (MDD) |
| • Color | Orange |
| • Load Capacity | 11 kN/1134 kg |
| • Weight | 15,6 kg |
| • Depth | 18,5 cm |
| • Length | 215,9 cm |
| • Width | 60,9 cm |
