CERVICAL COLLAR

MULTI-SIZE ADULT AND PAEDIATRIC CERVICAL COLLAR

NEC UP

DESCRIPTION

Spencer cervical collars come in a variety of models: one-piece, bi-valve or in multi-size kits. They are used for trauma patients to prevent secondary injury to the spinal cord by immobilizing a potentially unstable spine. Multi-size kits include 6 different colour-coded sizes, to make immobilization faster and more intuitive.

Nec Up is a multi-size cervical collar. It is adjustable to fit multiple sizes whilst providing great cervical stability for traumatized patients: the adult model fits four sizes, the paediatric one fits three.

FEATURES

- Quick application thanks to the strap closure
- Access for tracheotomy
- Padding to increase comfort
- Rear hole for ventilation and to allow inspections
- Chin support has 4 heights in order to make the device suitable for a wide range of cervical conformations
- The selected size can be easily identified thanks to the red colored marking visible on the front side
- After the size has been selected, the chin support can be easily fixed by pressing the two locking tabs
- Compatible with RX, MRI, TAC

Technical data

| | |
|-----------------------------------|---|
| • Obtainable chin support heights | Tall – 135 mm Regular – 125 mm Short – 115 mm Low – 105 mm |
| • Circumference | 575 mm |
