## EMERGENCY HYPOTHERMIA BLANKET

### DESCRIPTION

Emergency Blanket, 210 cm x 160 cm Emergency Foil for Car, Home, Travel, Hiking, Prevents Loss of Body Heat.

## FEATURES

- Strong reflection to help rescue:

It has a strong reflection effect. You can use the Shiny Colour to promote the search to attract rescue personnel. Open it and wrap it when you are waiting for rescue in the wilderness, the shiny reflection will be a signal that helps you be quickly found by rescuers. Absolutely useful and reliable for outdoor survival

- Temporary camping picnic mat:

This blanket with toughness, which is not easy to damage when rubbing on the floor. Waterproof and smooth surface, making it a temporary picnic mat when you camp. Solve the emergency situation in a short time when you are outdoors. Definitely practical! Note: Please keep away from sharp objects when using it.

- Keep your body warm:

If someone gets seriously injured in an accident or freezes in icy weather, use this thermal blanket to wrap the body. It reflects the heat emitted by the body to prevent body temperature from falling down and ensures that the body is effectively kept warm for first aid. A heat blanket here!

- Easier shade:

If you need outdoor protection and sun protection, open it to wrap it as a rain cape or simply set it up into a tent. You no longer need to carry the heavy tent and raincoat when you are camping. It can not only serve as a raincoat and protection, but also as a protection for the car windshield in sunshine. Just take it with you. Very portable and versatile

- Our advanced aluminised double sided heat blankets retain up to 90% of body heat and are perfect for use in survival situations, but also for use at home and in industry. The blankets are waterproof, windproof and moisture-repellent, keeping you dry in damp, wet, rainy and cold environments.
