SINGLE HIGH END HDU MONITOR Resona 7

Powered by the most revolutionary ZONE Sonography® Technology, Resona 7's new ZST+ platform brings ultrasound image quality to a higher level by zone acquisition and channel data processing.

■ Brio X70/50/30 Patient Monitor

Optimized simplicity to empower your workflow

From EMS to ICU, Brio X series contain the most demanded features of daily clinical workflows
With a wide range of parameters, comprehend the patient status quicker, and make your decisions better

Advanced Scoring System

- Early Warning Score (EWS)
- Glasgow Coma Scale (GCS)

Enhanced Cardiac Monitoring

- 12CH Resting ECG algorithm
- Bionet patented ST Map

Neurology Monitoring

- EEG Level Monitoring
- NMT Monitoring

Anesthesia Monitoring

- Multi-gas analyzer with O₂, N₂O monitoring
- ICG Non-invasive hemodynamic monitoring

Modular Upgradability

- Paramount : Pre-configurable external ICU module box
- External printer module

Intuitive & Easy Interface

- One layer menu structure with short-cut buttons
- Snap-shot with 16 sec full disclosure

FEATURES

Versatile applications, from EMS to High Acuity Units

- Compatible external modules & accessories across Brio X series
- Choose from simple & easy numeric view to full graphical display with parameter waveform display select menu

High Resolution Touch Display

- Capacitive touchscreen with additional trim knob
- Bright backlit LCD with high resolution display
- Brio X50 : 12.1" (1,280 × 800)

Ergonomic and robust design

- Easy battery insertion with optional battery expansion
- IPX2 test approved through shock and vibration test

ICU monitoring with easy mounting module

- ETCO2 (All models)
- ICG Non-invasive hemodynamic monitoring
- Multi-gas analyzer
- Anesthesia monitoring with NMT, EEG

Early risk management with EWS, GCS

Brio X series offers 5 types of EWS (Early Warning Score) and GCS (Glasgow Coma Scale) With scoring system of Brio X series, it is now easier and faster to assign the right treatment

■ Robust design with user-friendly usability

“One Touch” design for easy pole, rollstand and wall mounting

Easy-Release battery pack

IPX2 rated

■ Brio X70/50/30 line up

From low to high acuity, choose the Brio X monitor that best suits your workflow
