Light Weight Portable Oxygen Cylinder for Home Patient with Regulator

- Portable and Light Weight Oxygen Breathing Kit
- Filled with Medicinal Grade Oxygen
- Easy Operation for Accurate Oxygen Flow adjustable from 0.5 LPM to 10 LPM
- No use of Tool/Spanner for Operation, All operation by hand

Specifications for Oxygen Flow Meter Type

Oxygen flow meter with humidifier bottle and gauge Material: copper, flow tube and humidifier body use high-strength polycarbonate plastic, the ball is stainless steel Resistance: high temperature resistance.

- Calibrated: yes
- Humidifier capacity: 170 to 180
- Valve material: stainless steel
- Pressure reducing range: 2-3 mpa
- Relief valve pressure 3.5+-0.5 mpa Input pressure: 4.5bar ± 0.5bar
Accuracy: ± 10% read value Standard inlet connection:
ISO G1/8" Configuration: single flow meter

OXYGEN REGULATORS

Description

Medline Small Tank Oxygen Regulator

Medline oxygen regulators use an advanced, patented Intelliflo disc to regulate oxygen with very tight tolerances. Featuring a brass core for maximum safety and permanent laser etchings on knob and body that won't peel, flake or wear off.

O2 Regulator, CGA 870

Features

- Oxygen use
- Chrome-plated brass body
- 3000 psi max inlet pressure
- 1 1/2 inch diameter UL-listed gauge
- Complies with CGA standards
- Internal relief valve
- Hose barb outlet
- Piston design regulator
- Sintered bronze inlet filter
- Easy to read flow rate window
- Meets ignition testing for oxygen service

Spiracle BRAVO2 Oxygen Regulator with 2 HP Outlets

Features

- The Spiracle BRAVO2 Oxygen Regulator is supplied with two compatible high pressure outlets.
- Constructed from a solid piece of brass, the uni-body style regulator with internal brass components provide a safe and effective regulator.
- 11 variable flow rates from 0.25 to 25 Litres per minute and 2 high pressure outlets.
