PORTABLE MINI FRIDGE

Portable Mini Fridge Medication Cooler Travel Case With Temperature Display

DESCRIPTION

Insulin Pen Rechargeable Battery USB Powered Portable Mini Fridge Medication Cooler Travel Case with Temperature Display.

TSA Approved Ideal for Refrigerated Medicine 36-46°F.

- One-key setting to 46.4°F(8°C)
- Precise control of each degree
- Can be powered by battery, power bank
- Alarm system and power supply

FEATURES

- **Temperature Control:**

The insulin cooler box can be able to maintain a stable temperature range from 2-18°C to protect insulin from hot temperatures. The temperature is also manually adjustable.

- **Portability:**

The insulin cooler case is equipped with a convertible shoulder bag, easy to carry for travel, picnic and hiking.

- **Battery Life:**

This insulin cooler box is equipped with a durable battery and charging accessories, to ensure that insulin stays cool, even in the long flight. The insulin case can be used by plugging in or by using batteries which are also rechargeable.

- **Big Capacity:**

The cooler box has enough space to fit multiple vials or pens of insulin.

- **Durability:**

The cooler box should be made of high-quality materials that ensure its longevity and sturdiness. We also provide the excellent after-sales service.
