

RHINO RESCUE

Compressed Gauze

RHINO RESCUE Compressed Gauze

Product Description

RHINO RESCUE Compressed Gauze is a cotton sterile bandage for wound dressings. It is made of high-quality cotton, perfectly absorbs moisture and is hermetically sealed in a Z-shaped manner. Applications include wound dressings, critical and normal bleeding.

This bandage can be used as a support gauze for hemostatic agents in combination with any compression dressing to control bleeding. Compressed Gauze can be used to stop bleeding in conjunction with a compression bandage, and as a backing for hemostatic bandages or for dressing small wounds.
