## **Dual Diagnostic Light**

## **RHINO RESCUE Reusable Led Penlight Dual Diagnostic Light**

### **Product Description**

Rhino Rescue diagnostic Penlight has two light sources, cold and warm, and the white light is bright and shiny, which is suitable for checking the throat. The yellow light has a soft color and is suitable for pupil examination. The pupil light medicine is made of anodized aluminum alloy, and the bulb adopts high quality LED crystal, which makes this pen energy-saving, environmentally friendly and durable. The diagnostic light is engraved with a scale and pupil comparison data history chart, which can be used for daily check and measurement.

## Product Benefits

Rhino Rescue diagnostic Penlights are perfect for checking your children's sore throats, ears, or noses at home, providing reliable illumination for all your family's needs. Add these stylish and practical penlights to your home essentials, and make sure you're never left in the dark.

## Product Features

- o LED illumination.
- o Reusable.
- o Replaceable batteries (AAA size).
