WALKING AID

This Simplicity 2 Rolling Walker (Rollator) features a modern design that looks as great as it performs. Light, strong aluminum frame with special caster design provides a great turning radius while big 8" indoor/outdoor wheels are made to handle even bumpy, uneven outdoor terrain. When it's time to rest, nicely padded seat and height adjustable backrest add extra comfort. Other features include wide, easy to use handles and locking brakes, spacious storage compartment, and easy-pull handle to fold and take your rollator anywhere.

Rolling Walker, Easy Folding & Height Adjustable, Padded Seat & Backrest, With Locking Brakes, 8" Wheels.

FEATURES

- Sophisticated style with easy assembly and custom height-adjustable handles and backrest in a durable, lightweight aluminum frame with a sleek, clean look
- Large 8" non-marring wheels with enhanced turning radius are ideal for indoor and outdoor use, even on rough, uneven surfaces
- Comfortable seat with adjustable back support, convenient zippered storage bag, and ergonomic loop brakes that lock for extra safety
- Lift with one hand to fold to compact size for easy transport or storage

- **Foldable:** The entros folding rollator is made of premium quality under expert supervision which is lightweight in nature.
- **Portable:** The offered entros aluminum foldable walker is portable and can be folded for easy storage and transportation as well.
- **Certified:** The offered folding rollator for adults by us is easy to use and is CE European Union Certified. U.S. FDA Approved. ISO Certified.
- **Added basket:** A basket is also added to it so that necessary items like medicines and washcloths can be stored easily.
- **PVC seat:** The seat of this Foldable Rollator is PVC padded and is 8". It also comes with high-quality solid castors
