AUTOMATIC BLOOD PRESSURE MONITOR **“PARR ”Automatic Blood Pressure Monitor** **Model: Z5**

Prevent the risk of cardio disease and stroke by early detection of atrial fibrillation, premature contraction, tachycardia and bradycardia.

Cardiac disorders need medical attention and thus early diagnosis is of paramount importance.

The PARR technology detects arrhythmia during regular blood pressure checks without any additional user skills, user interaction and measurement prolongation.

Atrial Fibrillation Detection (AFib)

The upper chambers of the heart (the atria) beat irregular (quiver) and mostly fast instead of beating effectively to move blood into the ventricles. This condition is associated with a higher risk for cardiac blood clots, stroke, heart failure and other heart-related complications. About 10 % - 20 % of patients who suffer from an ischemic stroke also suffer from atrial fibrillation.

Premature Contraction Detection (PC)

Extra, abnormal heartbeats generated in abnormal locations of your heart, either in the atria (PAC) or in the ventricles (PVC) or the cardiac conduction nodes (PNC). These extra beats disrupt your regular heart rhythm, sometimes causing palpitations (e.g. skipped beats) in your chest. It may occur singularly or repetitively with various incidence. If not stress-related, they are a sensitive marker for a multitude of cardiac disorders, elevated ischemic stroke risk with PC.

Features

- Bluetooth® low energy technology
- Arrhythmia Detection (ARR)
- Atrial Fibrillation Detection (AFib)
- Premature Contraction Detection (PC)
- Cuff Detection
- Movement Detection
- Hypertension Risk Indication
- Average of the last three readings
- 7 day AM/PM Averaging
- 120 memories for 2-users with date & time indication
- Guest Mode
- Large LCD size | 69 x 64.4 mm
- USB Type C Port (USB Power Connector)
- Rechargeable Lithium-ion Battery
- Latex-Free Patented Universal Cone Cuff
- Lifetime Calibration
- USB cable
- Latex-Free Patented Universal Cone Cuff
- Instruction Manual
- Zipper bag

Support

HEALTHSTYLE APP

Mobile Calibration System

Bluetooth® low energy technology
